

simpull®

the quick open box

A better box that's cheap to make, easy to implement, quick to open, saves money and helps save the planet? That's Simpull.

A box for the circular economy

1

Push in the flaps

2

Grip tape & pull open

3

Reseal with tape

No knives. No damage. No delays.

The Simpull opening system is a clever perforation formation that allows a taped up box to be opened with just one hand and without a knife.

Save time and money

Allows instant access to contents to save time and money

No product wastage

Makes accidental damage to the contents near impossible

No knife injuries

Removes the risk and cost of injury to the user

It's easy being green

Simpull quickly removes the adhesive tape from the cardboard in one easy move without damaging the box and leaves the cardboard clean.

Extended reusability

Significantly extends the reusable life of the box

Better recyclability

Improves recyclability and helps meet sustainability requirements

Safe and strong

Delivers its contents as safe and secure as a traditional box

Tailored to your needs

Simpull can be applied to almost any box and is unobtrusive to the printed surface. It's simple to implement into existing production lines and can help meet sustainable packaging obligations. Contact us today and let us help you tailor Simpull to your needs.
